

It's time to get comfortable.

Affinity™ Series Air Handlers

**AFFINITY™ SERIES
AVG MODEL
VARIABLE-SPEED,
SINGLE-PIECE DESIGN**

At York, we think the best kind of air handler is one you never have to think about. So we designed our Affinity™ Series Air Handler to deliver exceptional performance year after year. Designed to match perfectly with your air conditioner or heat pump, the Affinity™ Air Handler efficiently circulates cool air through your home in the summer and cozy, warm air in the winter. Your home stays comfortable and quiet, and superior indoor air quality is a given. Why? Because York has it handled.

Feel good with the Good Housekeeping Seal.

York® products that bear the Good Housekeeping Seal give you the added assurance of product replacement or refund of the purchase price if the product proves to be defective within two years from the date sold by an authorized dealer.

Keeping it quiet.

You value peace and quiet, and so do we. That's why York incorporates a special sound-dampening design to reduce vibration and noise during start up, operating and shut off periods so you enjoy the sound of silence.

Variable speed for maximum comfort.

Super-quiet, high-efficiency variable-speed ECM fan motor circulates air for longer periods at a fraction of the cost. That's because fewer starts and stops save energy. Longer run times also mean fewer hot and cold spots and longer periods of air filtering, resulting in cleaner and more comfortable air.

ClimaTrak™ customizes your comfort.

Now you can enjoy custom comfort regardless of whether you live in a dry, temperate or humid climate. When ClimaTrak™ variable-speed air-handling technology is included in your system, your installer can set an operation cycle that works best in your climate.

Durability makes a long-term difference.

Built to last, this sturdy cabinet is protected with a durable, attractive pre-painted steel finish to prevent rust. Plus, reinforced fiberglass insulation keeps the cabinet from sweating and corroding.

Get complete comfort with a matched system.

Your indoor air handler is the crucial system component that circulates comfortable air throughout your home. When matched to your outdoor unit, this advanced design delivers exceptionally efficient performance and extended system life.

- *Save energy with the advanced, variable-speed ECM motor, allowing longer periods of air circulation for more comfort at less cost.*
- *A tighter cabinet design helps keep contaminants out of the air flow system.*
- *Keep indoor air healthy with better coil drainage of moisture and condensate with positively-sloped drain pan with dual openings.*

- *Super-quiet operation is brought to you by the QuietDrive™ System and innovative swept blade fan design.*
- *ClimaTrak™ technology lets your installer adjust the air handler's settings to match the comfort requirements specific to your climate.*

Air handlers and coils: Why you need them

An air handler is a vital piece of your comfort system. Your system has two parts—the outdoor unit and the indoor unit. The air handler is the indoor unit that is responsible for circulating air throughout your home. Inside the air handler are a fan and a coil. When these two components are properly matched, you'll enjoy money-saving efficiency, improved comfort and years of trouble-free service.

MODEL	DESCRIPTION	TONNAGE RANGE	APPLICATION	LIMITED WARRANTY
AVG	Single-Piece design with variable-speed ECM motor	2–5 Ton	AC/HP	10-Year parts*

For additional product details, such as weight and dimensions, visit www.york.com or ask your York® Dealer.
 *For 10-year limited parts warranty, system must be installed after May 1, 2009, and registered online within 90 days of installation. Otherwise the warranty reverts to the standard warranty as published in the product warranty certificate.

Complete your home comfort system by asking about ways to improve your indoor environment and protect your family's health with our Total Comfort System™ approach to indoor air quality.

Make a smart choice: York®

Choosing the right dealer is the first step in selecting the best system for your home. Your York® Dealer is trained to give you professional home comfort services, including:

- An evaluation of factors such as your home's size, age, number of rooms, climate characteristics and utility costs
- A system recommendation that fits your family's comfort needs, your home, your lifestyle and your budget
- The assurance of proper installation and customer care, including warranties and maintenance options

Stay comfortable for years to come.

York is proud to offer the YorkCare™ Comfort Plan. It's designed to maintain your system as well as your peace of mind. With YorkCare™ you get total protection that ensures your unit is effective and efficient for years to come.

What's more, your York® Dealer offers maintenance agreements that provide upkeep while maximizing the warranty provisions. Ask about the YorkCare™ Comfort Plan. A little extra coverage is always a comforting idea.

Long story short—our history.

You've probably enjoyed York engineering for years without even knowing it. We have, after all, designed and implemented heating and cooling systems in some of the world's most famous structures, including the U.S. Capitol building, India's Taj Mahal, the Sydney Opera House, the entire U.S. Navy nuclear submarine fleet, and even venues such as your local mall and corner bank.

There's a reason people trust us with the big jobs. We've been doing this a long time. Over 130 years, in fact. In that time, we developed the first successful room air conditioner and cooled the world's first theater, hotel and office building. We're constantly leading the industry in our design and our technology. And our commitment has earned our products the Good Housekeeping Seal of Approval. No matter what the scale, chances are we've developed an efficient, durable and effective solution for it.

You can depend on York to give you the choices you trust for comfortable performance all day long, year after year. Want to know more? Contact your York® Dealer. They have 130 years of innovation to tell you about.
