AFFINITY™ SERIES AIR HANDLERS

**BUILT RIGHT.
BUILT BY YORK.**

 **YORK®**
It's time to get comfortable.

At York, we think the best kind of air handler is one you never have to think about. So we designed our Affinity™ Series Air Handler to deliver exceptional performance year after year. Designed to match perfectly with your air conditioner or heat pump, the Affinity™ Air Handler efficiently circulates cool air through your home in the summer and cozy, warm air in the winter. Your home stays comfortable and quiet, and superior indoor air quality is a given. Why? Because York has it handled.

Save with ENERGY STAR® products.

Products that meet or exceed U.S. Environmental Protection Agency energy efficiency standards qualify as an ENERGY STAR® product. That means when you compare them with standard models, you'll find ENERGY STAR® products provide a higher level of efficiency, cutting electricity consumption and cost.

Feel good with the Good Housekeeping Seal.

York® products that bear the Good Housekeeping Seal give you the added assurance of product replacement or refund of the purchase price if the product proves to be defective within two years from the date sold by an authorized contractor.

Always quiet.

Silence is golden — which is why York made the investment to create the QuietDrive™ System. It features a swept wing fan for smooth airflow, a composite base pan to distribute and dampen sound and an isolated compressor compartment to reduce noise so you — and your neighbors — enjoy peace and quiet.

Durability avoids breakdowns.

To help keep your system running properly for years, York builds strength and durability into every unit. Exterior cabinets and interior components are designed and selected for rugged reliability, so you can count on long lasting value from your investment in home comfort.

Advanced R-410A refrigerant.

Like a heart, your comfort system circulates a fluid — called a refrigerant — to function properly. All York® products with R-410A use an advanced refrigerant that doesn't harm the ozone layer while providing reliable, efficient performance for your home environment.

Affordable peace of mind.

Select York® systems using R-410A include a 10-year limited warranty on the compressor and parts as standard coverage (when you register qualifying products online within 90 days of installation, otherwise the parts warranty reverts to a 5-year parts warranty). See your York® Contractor for details.

- Save energy with the advanced, variable-speed ECM motor, allowing longer periods of air circulation for more comfort at less cost.
- A tighter cabinet design helps keep contaminants out of the air flow system.
- Keep indoor air healthy with better coil drainage of moisture and condensate with positively-sloped drain pan with dual openings.

- Super-quiet operation is brought to you by the QuietDrive™ System and innovative swept blade fan design.
- ClimaTrak™ technology lets your installer adjust the air handler's settings to match the comfort requirements specific to your climate.

Air handlers and coils: Why you need them

An air handler is a vital piece of your comfort system. Your system has two parts—the outdoor unit and the indoor unit. The air handler is the indoor unit that is responsible for circulating air throughout your home. Inside the air handler are a fan and a coil. When these two components are properly matched, you'll enjoy money-saving efficiency, improved comfort and years of trouble-free service.

MODEL	DESCRIPTION	TONNAGE RANGE	APPLICATION	LIMITED WARRANTY
AVG, AHV	Single-Piece design with variable-speed ECM motor	2–5 Ton (AVG) 1.5–5 Ton (AHV)	AC/HP	10-Year parts*

For additional product details, such as weight and dimensions, visit www.york.com or ask your York® Contractor.

*For 10-year limited parts warranty, system must be registered online within 90 days of installation. Otherwise the warranty reverts to the standard warranty as published in the product warranty certificate.

Complete your home comfort system by asking about ways to improve your indoor environment and protect your family's health with our Total Comfort System™ approach to indoor air quality.

Make a smart choice: York®

Choosing the right contractor is the first step in selecting the best system for your home. Your York® Contractor is trained to give you professional home comfort services, including:

- An evaluation of factors such as your home's size, age, number of rooms, climate characteristics and utility costs
- A system recommendation that fits your family's comfort needs, your home, your lifestyle and your budget
- The assurance of proper installation and customer care, including warranties and maintenance options

Stay comfortable for years to come.

York is proud to offer the YorkCare™ Comfort Plan. It's designed to maintain your system as well as your peace of mind. With YorkCare™ you get total protection that ensures your unit is effective and efficient for years to come.

What's more, your York® Contractor offers maintenance agreements that provide upkeep while maximizing the warranty provisions. Ask about the YorkCare™ Comfort Plan. A little extra coverage is always a comforting idea.

Long story short—our history.

OVER
135
YEARS
OF DESIGN AND
INNOVATION

You've probably enjoyed York engineering for years without even knowing it. We have, after all, designed and implemented heating and cooling systems in some of the world's most famous structures, including the U.S. Capitol building, the Sydney Opera House, the entire U.S. Navy nuclear submarine fleet, and even venues such as your local mall and corner bank.

There's a reason people trust us with the big jobs. We've been doing this a long time. Over 135 years, in fact. In that time, we developed the first successful room air conditioner and cooled the world's first theater, hotel and office building. We're constantly leading the industry in our design and our technology. And our commitment has earned our products the Good Housekeeping Seal of Approval. No matter what the scale, chances are we've developed an efficient, durable and effective solution for it.

You can depend on York to give you the choices you trust for comfortable performance all day long, year after year. Want to know more? Contact your York® Contractor. They have over 135 years of innovation to tell you about.
