

**STAY IN YOUR COMFORT ZONE—
FROM ANYWHERE.**

Enjoy energy-saving home comfort

Life is easy when you can create comfort on demand from practically anywhere, anytime. With the York® Affinity™ Residential Communicating Control with Wi-Fi®, you can use iPhone®, Android® or other mobile devices to talk to your home comfort system over Wi-Fi®, 3G or 4G networks. It's like you're actually adjusting the control on the wall—except you're using the device in your hand. It's the easy way to get comfortable when you want to, while feeling better about saving energy when you need to.

An inspired design.

Welcome to our vibrant, friendly interface that looks as good as it feels thanks to neat icons and a sleek, high-definition touch screen that complements your home décor.

Stay in your comfort zone.

Make every family member feel happy by using the zone control function that lets you set specific temperature levels for up to six zones (room areas) from one touch screen panel.

Control one or more homes while away.

Schedule daily events on your thermostat to automatically adjust settings when you're gone. The mobile display even lets you control more than one home! Use temperature and humidity notifications to keep pipes from freezing, prevent mold and protect pets.

See exactly what's on your wall in your hand.

The same screen on your wall also appears on your smartphone or tablet device, simplifying the learning curve. It works the same, because it practically is the same! All you need to do is install our IntelliComfort™ app from your app store.

Download the **IntelliComfort™** app from

control wherever you are.

Get comfortable. Faster.

Reach your comfort level faster with the advanced “Quick Heat and Cool” feature that lets you temporarily “speed up” your system to the highest capacity to hit your heating or cooling setpoints quickly.

Say goodbye to programming hassles.

Enjoy quick and easy control of your home comfort system with intuitive touch screen icons and menus that speak your language: English or French and Fahrenheit or Celsius settings.

It's easy to remember.

Save energy and prevent unexpected repairs with automatic status notices and optional email alerts to ensure proper maintenance for better system performance.

Phone home to your comfort zone.

Prevent problems with convenient reminders and alerts: System status alerts can be sent as email notifications to alert you, or if you choose, your contractor for prompt servicing.

Every room feels just right with zone control: Precise comfort control for up to six zones/rooms lets you set precise, customizable temperature levels from a single touch screen panel.

Feel comfortable faster with advanced “Quick Heat and Cool” feature: This “speed up” feature temporarily puts the heating or cooling mode at the highest capacity to maintain your comfort level.

Talk to your whole system with built-in intelligence: Be sure every enabled system device is working at maximum efficiency—from your air conditioner, to your furnace, to other system accessories—each part contributes to whole home comfort.

Customize your vacation comfort schedule. Easily program multiple custom daily events and vacation schedules on your thermostat, as well as homel/away settings on your smartphone, for greater energy savings.

Complete your home comfort system by improving your indoor environment and protecting your family's health with our Total Comfort System™ approach to indoor air quality that offers air filtration and whole home humidification/dehumidification solutions.

Enjoy advanced home comfort from the controls leader.

In 1885, Warren Johnson inspired the future by inventing the first electric room thermostat. Today, that same principle of innovation is advancing residential comfort controls to make the indoor environments where we live, work and play more comfortable.

We put you in control of a lot of smart products.

The Affinity™ Communicating Control combined with smart equipment controls provide a sense of comfort and confidence that comes with these intelligent Affinity™ products:

Affinity™ Series CZH and CZF Split System Air Conditioners

Affinity™ Series YZH and YZF Split System Heat Pumps

Affinity™ Series YP9C and YPLC Gas Furnaces

LX Series TM9V and TM8V Gas Furnaces

Affinity™ Series AHV and MV Air Handlers

Make a smart choice by working with a York® Contractor.

Choosing the right contractor is the first step in getting the most comfortable and economical home comfort system. Your York® Contractor is trained to provide professional services, including:

- An evaluation of factors such as your home's size, control zones, number of rooms, climate characteristics and utility costs
- A system recommendation that fits your family's comfort needs, your home, your lifestyle and your budget
- The assurance of proper control installation and system care, including warranties and maintenance options
